

Ansel Melly

Date of birth: 26 Aug 1984 | Place of birth: Eldoret, Kenya | Gender: Male | Nationality: Kenyan | Phone: (+254) 723603314 (Mobile) | Email address: ansel@anselmelly.com | ID: 24225133 | Website: <https://anselmelly.com/> | LinkedIn: <https://www.linkedin.com/in/anselmelly/> | Whatsapp Messenger: <https://wa.me/254723603314> | Address: 8760, Rockville Apt, Hse M4, Kinoo Rd, Woodley, Jamuhuri, 00200, Nairobi, Kenya (Home) | CODE. DATA. INSIGHTS.

About myself

Senior Software Engineer & Statistician with 10+ years of technical development experience and BSc in Statistics with Economics (95th percentile academic performance). Currently pursuing an MSc in Data Science & Analytics (Computational Statistics) at Strathmore University, @iLabAfrica. Expert in statistical modeling, database architecture, and data-driven application development. Proven track record building analytical solutions, optimizing complex databases, and delivering statistical insights for clients across e-commerce and enterprise sectors.

Statistical & Technical Expertise: Advanced statistical analysis, multivariate modeling, econometric techniques, Python/R programming, SQL optimization, and scalable data infrastructure development. Experience integrating statistical models into production systems, building predictive analytics platforms, and creating automated reporting solutions.

Education & Training

Msc Data Science and Analytics | Strathmore University | Current | Nairobi, Kenya

Specialisation in Computational Statistics within a rigorous postgraduate programme building advanced competency across descriptive, diagnostic, predictive, and prescriptive analytics — with applied focus in Machine Learning, Big Data, and statistical modelling across Finance, Economics, and the Social Sciences.

Website: <https://strathmore.edu/>

Bsc. Economics and Statistics | KCA University-Nairobi, Kenya | 3 Jan 2022 - 18 Apr 2025 | Nairobi, Kenya

Rigorous quantitative curriculum spanning multivariate statistics, stochastic processes, econometrics, survival analysis, experimental design, and impact evaluation — with consistent high performance (52% of courses graded A/A-).

6-Credit Research Thesis (A-): Predictive analysis of Kenya's consumer behavior using KNBS, IMF, and CBK data (2019–2024), implementing SARIMA, VECM, Random Forest, and PCA across 12 CPI components.

Field(s) of study: Economics and Statistics | Final grade: 95th percentile (3.5+ GPA weighted) | Thesis: Statistical Analysis of Consumer Spending Patterns | Website: <https://www.kcau.ac.ke/>

Diploma Information Technology | The Technical University of Kenya | 1 May 2005 - 31 Oct 2007 | Nairobi, Kenya

Foundation in programming, software development, database design, and system analysis — the start of a 10+ year journey in software engineering and data systems.

Final grade: Credit | Website: <https://tukenya.ac.ke/>

Work experience

Ansel Melly Consulting - Nairobi, Kenya (Remote Global) | Independent Software & Data Science Consultant | 1 Jan 2012 - Current | Nairobi, Kenya

Independent consulting practice spanning data science and software engineering. Deliver statistical analysis, predictive modelling, and econometric forecasting for SMEs and international clients using R and Python. Design and develop full-stack web applications, database solutions, and API integrations for business automation. Manage end-to-end project delivery across remote and cross-cultural engagements.

Senior Software Engineer & Data Solutions Developer | Zenevan Consulting | 1 Jun 2019 - Current | Nairobi, Kenya

Built and deployed predictive models and multivariate statistical systems for 15+ clients, reducing operational costs by 25% and improving data-driven decision-making by 40%. Developed full-stack analytics platforms using PHP/MySQL processing 100k+ records daily. Architected and optimised MySQL databases handling millions of fintech transactions, with secure API integrations across M-Pesa, Pesapal, and DPO processing \$2M+ monthly. Reduced database query times by 60% through indexing and query optimisation.

IT Manager | Bloggers Association of Kenya | 1 May 2015 - Current | Nairobi, Kenya

Oversee IT strategy, governance, and infrastructure for the organisation. Manage system security, technology procurement, and vendor relationships. Lead IT project management and provide strategic technology consultation to organisational leadership.

Software engineer | Kudura Power East Africa Ltd | 28 Feb 2021 - 31 Jan 2023 | Busia, Kenya

Developed mobile applications with integrated analytics and real-time data processing. Built data collection systems and automated pipelines for energy consumption forecasting, and statistical models for predictive maintenance.

Skills

Programming & Development | Programming (PHP, Laravel, Wordpress, SQL, JavaScript, HTML, CSS) | MySQL | NoSQL | PostgreSQL | SQL | Database Optimization | RestFul Apis | Python (computer programming) | Linux administarion | Payment System Integrations | Third-Party Intergrations

Statistical Analysis & Data Science | R (Advanced) | SQL (Complex Queries) | Multivariate Statistics (A-) | Stochastic Processes (A) | Hypothesis Testing | Predictive Modeling | Python (Pandas, Numpy, Scipy) | Time-series Forecasting | Econometric Analysis

Economic Analysis & Business Context | Economic Forecasting | Macroeconomic Analysis | policy analysis | Cost Benefit Analysis | performance metrics | market analysis

Hobbies and Interests

Reading

Enjoy reading extensively to stay informed on topics that broaden my expertise and contribute to my intellectual growth.

Traveling

Enjoy traveling to immerse myself in local cultures and natural landscapes, valuing experiences that broaden my perspective and connect me with different communities

Recommendations

Senior UX Researcher | Brian Ngaira

Projects are enjoyable when working with a skilled, talented, reliable problem solver. That is working with Ansel Melly

CEO, Skyline | Huston Malande

Ansel is an exceptional developer: honest and trustworthy, has technical depth and breadth of experience, and is the essential kind of project hacker who figures things out and gets them to work by any means necessary. I highly recommend him.

Travel Blogger and Photographer | Bonita Aluoch

Ansel is the most reliable, sensible and honest tech guy I have ever worked with. He is a kind and patient problem solver who always a phone or email away. Working with him for more than four years now has been a delightful journey and would recommend him over and over again. Pay him all your monies and get the much needed peace of mind and confidence in your tech stuff.
